Overview

In September 2007, Allegro Media Corporation issued an invitation to bid on the complete moving services for their Portland, Oregon location. This facility is a distribution hub for all types of music, movies, and other audio visual materials and included office space for 100 full-time employees and an IT data center. Lile's Office and Business division participated in the bid process along with four other prominent local moving companies. Although Lile was not the lowest bidder, we were awarded the project based on our previous experience with large, complex moves and our customer references.

Lile's Office and Relocation team began moving the Allegro facility on March 14th, 2008. The move plan incorporated unloading and reloading of all warehoused pallets, disassembly and reassembly of all racking and storage areas, and moving of all equipment and inventory. It also included the relocation of all office furniture, computers, and contents. This was a complete wall to wall move of a 70,000 square foot facility. The project was completed on time and under budget.

Whether it is a small office move or a complex, multi-site, large office move with sensitive equipment, Lile's Office and Business Relocation services are your trusted source for on-time and on-budget move. Our job is to take care of your move so you can focus on your business.
