

*We realize that pets are more than animals
...they are part of your family*

Ease your mind and make moving your pet a simple process by using **PET EXPRESS** to professionally manage the safe transport of your “furry” family members to their new home. Since 1978, **PET EXPRESS** has specialized in the safe transport of family pets throughout the USA and all over the world.

We can make it easy and comfortable for your pet when travelling within the USA. It may not always be practical for you to drive your pets over long distances, and extended confinement and lack of pet-friendly hotels may be challenging during your road trip. Your pets will benefit from being picked up prior to your move and cared for in a friendly environment until you are settled and ready for them to be safely transported to your new home.

If you are travelling overseas or to Hawaii, veterinary preparations may need to start at least 6-7 months before travel begins. In most instances, a correctly managed pet-move will completely eliminate or significantly reduce quarantine and minimize customs delays upon arrival.

Making Pet Transport easy with optional services including:

Professional Consultancy Advice on country entry protocols, veterinary requirements, import permits and entry documentation, flights, travel crate requirements, USDA, TSA, IATA & Airline regulations.

Pickup from your home, from your boarding kennel or from friends and relatives.

Boarding is a great way for pets (and their owners) to handle the family move. Your pets relax at a pet motel during the hectic household removal and settling-in periods.

Approved travel crates ensure your pet's safety while making sure that the airline will accept your pet for travel. Crate regulations constantly change, so let us provide you with approved crates or help you to determine if your existing crates are approved and the correct size.

Veterinary treatments **must** be performed and documented precisely. **PET EXPRESS** will work with your USDA accredited Veterinarian to ensure treatments are performed and documented to comply with your destination's requirements.

Airline transport with direct flights for your pets on “pet-friendly” airlines is important. We can find the right flights for your pets as well as provide “comfort-stops” to feed, water and exercise pets when direct flights are unavailable.

Lile

PREFERRED PARTNER

Customs clearance for your pets can be a time-consuming and inconvenient experience in many countries, especially when different languages or local-customs apply. We have “local” representatives all over the world who can manage this process for you.

Delivery to your new home offers convenience and practicality, especially if you have multiple pets or large pets and travel-crates. Allow us pick up your pets, manage customs, and then safely deliver your pets and crates to your new home.

For priority service, contact your local Lile Representative at 800.833.3510.
